### Drum Skirt (for 55g Dru

MF-DS55

Perfect to put underneath drums to prevent unwanted leakage onto the floor.

### Drum Top Cover (for 55g Drum)

MF-DTC

Thick and super absorbent and built to last.

## Loose Fill Products

### **Small Compressed Bag (3 Lbs)**

**Absorbs Approximately 3 Gal. Oil**

LF-SCB

### **Small Compressed Bags - Pallet (144)**

LF-SCB-P

Ideal where space is tight. Packed in a 6"x17" bag...expands to nearly 0.4cf; enough to deal with an average spill.

### **Medium Re-Sealable Bag (5 Lbs)**

**Absorbs Approximately 5 Gal. Oil**

LF-MRB

### **Medium Re-Sealable Bags - Pallet (121)**

LF-MRB-P

Ideal for use around the shop where small spills occur regularly. The medium bag holds approximately 0.4cf in a resealable bag.

### **Large Compressed Bag (9 lbs)**

**Absorbs Approximately 9 Gal. Oil**

LF-LCB

### **Large Compressed Bags - Pallet (84)**

LF-LCB-P

At less than 0.6cf compressed (1cf expanded), it's portable enough to move around with ease yet can handle most large spills.

### **X-Large Compressed Bag (59 Lbs)**

**Absorbs Approximately 60 Gal. Oil**

LF-XCB

### **X-Large Compressed Bags – Pallet (14)**

LF-XCB-P

At 3.8cf compressed (7cf expanded), this bag is ideal for larger spills and can be emptied in a 50g drum for repeated use in shops and/or garages.

### **High Wind Mix (7 Lbs)**

**Absorbs Approximately 7 Gal. Oil**

LF-HWB

Designed for areas where wind is a constant factor, the high wind mix is heavier and more stable.

### **Granular Acid Absorbent**

**Absorbs Approximately 6 Gal. Oil**

LF-A6L

Acid Neutralizer is a non-leaching formula that safely and effectively neutralizes and absorbs most acids on contact.

### **55cf Compressed Tote - 900lbs**

LF-TCB

### **30g 2 Drum System (60lbs incl.)**

LF-30G-NU

## Marine Products

### **Marine Barrier Mat**

MP-BM

Specially designed in conjunction with the Los Angeles beaches and harbors to absorb oil and fuel on water. At 6' x 24" these floating mats can be used inside of a contain spill area or can be linked together to form an absorbent barrier. Made with durable yellow material for easy visibility.

### **Marine Boom Wrap and Skirt**

MP-BWS

Designed to convert existing booms into absorbent booms. These superior absorbency mats wrap securely around a boom to absorb contained spills. Attached skirts increase absorption and minimize escape. Because they don't leach, products can be dried and used more than once.

### **Marine Containment Socks...MP-CS**

At 8' long and 6" wide, these Containment Socks can be linked together to form a containment barrier of any size. Used to contain spills from leaking boats, docks or shore releases, Containment Socks are easy to deploy and remove.

### **Marine Mats**

Small...2'x2'...MP-M22

Medium...3'x3'...MP-M33

### **Bilge Socks.MP-BS**

SaveSorb Bilge Socks are designed to fit inside most engine containment areas to keep your bilge clean and to prevent oily water from exiting into the environment. At 3" wide and 18" long, the special SaveSorb Spillow design provides superb absorption in a slim profile.

### **Fuel Pump Ring (box of 50)...MF-FR**

**Prism Berm (6'x6")...MP-PBC**

## Acid Solutions

### **SaveSorb Acid Absorbent & Neutralizer (2@6L)**

LF-A6L

### **5 Gallon Acid Spill Kit...SK-5GA**

6L acid neutralizer, 2 medium 6' Spillow Socks, 5 acid pads, heavy duty gloves, safety goggles, disposal bags, sweeper and dust pan.

### **Battery Box Pads - Small (4@8"x11")**

BBP-SM

### **Battery Box Pads - Medium (4@8"x13")**

BBP-MD

### **Battery Box Pads - Large (4@11"x29")**

BBP-LG

### **Battery Acid Spillow Mat (49" x 38")**

MP-BAS
