

THE ULTIMATE IN SERVICEABILITY

The industry's only serviceable family of LED lights

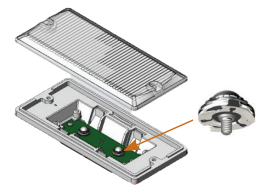

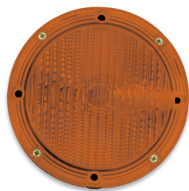

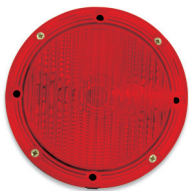

Serviceable / Upgradeable LEDs: Patented V-LED diodes are field upgradeable allowing the user to benefit from future LED technology without replacing the entire light. Simply thread the V-LED into the circuit board for quick installation.

Serviceable / Replaceable Cover Lens: Easily replace a broken lens while directly on the vehicle.

Simplified Maintenance & Reduced Vehicle Downtime: Reduce time and expense of replacing the entire fixture. Light can be disassembled for easy replacement of serviceable parts.

Low Lifecycle Cost: Save up to 10x over the life of your vehicle by utilizing sustainable LED light technology.

Eco-friendly: Serviceable parts eliminate the need to replace the entire light.
